Association Ambiguity

WAX allows us to study whether two words are consistently associated with the same relation type (relation unambiguous; Ex1) or with different relation types (relation ambiguous; Ex 2)

Ex 1: pocket → **wallet**

Many men put their **wallets** In their back pockets.

I put my **wallet** in my pocket.

Location

Ex 2: disaster → **hurricane**

A **hurricane** can cause a large disaster.

ResultIn

A **hurricane** is a good example of a natural disaster.
